## Subject List of products subject to quality control for permanent way

Dear Ladies and Gentlemen

With effect from 1<sup>st</sup> of April 2022, the new list of products subject to quality assurance will come into force.

This DBS replaces the edition of March 2021.

The amendment to the regulations includes the introduction of a QS mark as a certificate of conformity for direct deliveries to Deutsche Bahn AG. This will be sent to the companies concerned by the end of 2022.

In this context, the U-EBA mark will also be updated. For this purpose, the companies concerned should send a short summary of the number from the EBA approval and the title to the respective responsible test engineer.

In addition, some updates and additions have been made to the product list.

All changes have been marked with a border bar on the left and "2" at the end of the table.

Yours sincerely

Quality Assurance Procurement

Thomas Breitkopf
